

HOW TO PLAY:

This game is interactive. You need to move your players clockwise around the board.

Simple Rules:

You are trying to get all your players into home. Each throw, the player decides which piece to move. If no piece can legally move the number rolled, then play passes to the next player. Follow the instructions that pop up for the square your player lands on.

To start a player must throw an **odd** number.

Click the dice to roll
